

## Distribution of the number of tokens for title and content.

(For all doc type)

1 Token = 1 word

- Observation from Chart:** The chart provided illustrates the frequency distribution of tokens. Notably, the token '1' appears most frequently, with a total count of 5959 instances.
  - In the table below, it's evident that there are 2450 rows. It's important to note that this count differs from the token count (5959) due to the utilization of the 'value\_counts()' function, which captures unique content values exclusively.

	content	count
